

Stompa®

More than just a bed

Classic Kids

Timeless design that
lasts forever and ever
and ever and ever ...

www.stompa.com

Classic Kids

A beautiful classic design from Stompa made of solid Scandinavian pine. Built to last your child's rough and tumble throughout their precious childhood.

Starter Bed

A genius bed that grows with your child. Use this as a transition bed between cot and "big" bed. Your child will feel safe and cosy with high sides protecting them. It easily extends using our cleverly designed wooden slat system..

Wonderful matching furniture with spacious drawers and ample hanging space. Beautiful white lacquered finish. 🐻

Perfect places to store toys, books and extra bedding

A perfect room for your little toddler
with room to grow

Maximise your space - two kids in one bedroom

Stompa®
More than just a bed

Complete the bed with either two spacious drawers or our useful Trundle for sleepovers.

Classic Kids

Stompa®

More than just a bed

It all started back in the 60's

The Stompa trademark was established at the beginning of the 1960s. Since then Stompa has become one of the leading children's furniture brands in the UK and across Scandinavia.

The business concept was then—and still is—to design and manufacture good quality, functional kid's bedroom solutions offering more than just a bed. Stompa furniture has been designed to grow with your children from their first bed through their teenage years and beyond.

We source all raw material from sustainable and managed forests and pride ourselves in our attention to safety details. All our products are manufactured and tested according to the latest British Standard Safety Regulations.

Stompa operates a system of continual development and improvement and reserve the right to alter specifications should circumstances change. This brochure is supplied as a guide only. The dimensions given are approximate only. The reproduction of colours is as accurate as photography and printing processes allow. Please check with your stockist for product availability.

Caring for your furniture

1: The Classic Kids range is produced from mainly solid pine sourced from managed forests. We have used environmental friendly lacquers. As a natural product it will mellow with time. Direct sunlight accelerates this process.

Some variation in colour and grain is possible.

2: Cleaning should be done using a dry or slightly damp cloth.

3: To comply with UK flammability regulations FR treatment has been applied to cover fabrics where necessary. The FR treatment will not be effective if the fabrics are washed. Please consult a specialist cleaner for more general cleaning requirements.

4: Zips, where fitted are to aid manufacture and do not necessarily mean the cover is removable.

5: Sprung mattresses should be turned weekly for the first month or two and monthly thereafter. With foam mattresses, some dipping may occur after use, this is perfectly normal and caused by settlement.

Avoiding damage:

1: Wipe up spills immediately.

2: Avoid placing hot drinks directly on the surface.

3: Avoid placing furniture near radiators or other heat sources. Constant and intermittent heating can change the moisture content of the timber resulting in cracks and distortions.

4: Do not overload drawers which can put strain on drawer base and runners.

5: Do not allow children to jump on the slats or from the top bunk.
